## Casualty Simulation Appliance Order Codes

**For EMT / company ordering systems if required. For direct orders only, not for use with online bookings**

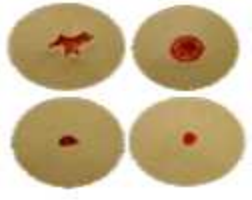

### Colour References

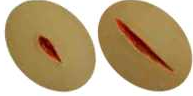

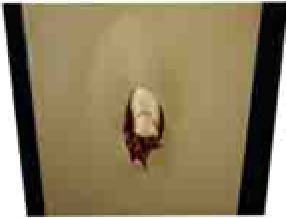

SWATCH	NAME	CODE
	Natural 1	A
	Natural 2	B
	Lao 2	C
	Cedar Brown	D
<b>Full kits available in mixed colours; please contact us to specify</b>		

As the most commonly used make-up for colouring prosthetic pieces is the Skin Illustrator Palette range, we've chosen to use this as the guide for selecting the base colours for these products. If you have one of these palettes please use it as an exact colour guide or refer to the colour samples below. Please be aware that colours vary on different computer screens and individual printers, so these colour swatch samples are provided as an approximate guide only.

**PLEASE REFER TO WEBSITE FOR LARGER PRODUCT IMAGES**
